USA Student Computer Use Policy

USA provides student access to computer resources through the wireless, JagMail (email), web servers, and departmental labs located throughout campus. Students using these resources must adhere to all policies of the University of South Alabama regarding the use of computers and computer networks.

Lab privileges can be denied to anyone using University equipment for illegfiS6hD4pb4JC

- x Threatening or "stalking" others via computer network.
- x Knowingly replicating or transmitting computer viruses , or otherwise deliberately damaging the systems or files of other people.

Strictly Prohibited Behaviors/Activities

- x Trafficking in pornography of any kind via computer network. Please note that redistribution of pornography, even though web page links, is often illegal.
- x Activity that violates state or federal law . This may include viewing,

material, including hate speech, threats, harassing communications (as defined by law), or information that violates any state or federal laws.

x "Spam" , the practice of indiscriminately sending unsolicited email (e.g., commercial advertisements, chain mail, pornographic materials, political lobbying, hate speech, racial diatribes, and religious proselytizing) to persons who have not indicated interest in receiving such materials.

x "Hacking" or "Cracking" , i.e., deliberately invading the privacy of others by attempting to gain unauthorized access to any account or system.

x Obtaining/distributing confidential information . Deliberately and inappropriately observing, recording, accessing, using or transmitting passwords, account numbers, e-mail addresses, phone numbers or
